

We understand your assistive technology (AT) needs may have changed due to the COVID-19 pandemic. The INDATA Project at Easterseals Crossroads is working to be as responsive to those needs as possible and will continue to provide equipment loans to Hoosiers in need.

## Stay Home

The INDATA Lending Library is closed to the public, but our team members are working remotely to continue to offer a variety of AT devices for loan throughout the state of Indiana.

## Wash Your Hands

Wash your hands for a minimum of 20 seconds before opening the package and again before handling the device(s).

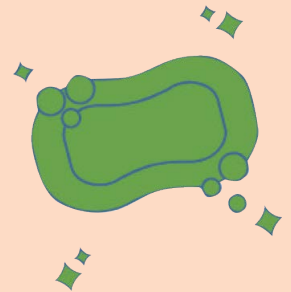

## Don't Stress

All equipment loans have been extended to June 30. The INDATA Project will contact clients if there are any changes to this extension.

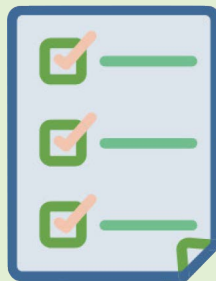

## Returning Equipment

Before returning the equipment, please clean and sanitize the device(s) using the two alcohol prep pads included in the original package.

## Sending and Receiving Equipment

INDATA will follow a strict procedure to be certain all equipment is sanitized before mailing. Once your package arrives, please isolate it for 48 hours before opening.

## REQUEST A LOAN
